

Rounded Binary

assignment 1

Name: _____

Complete the rounded binary section. You are given the **a** and modulating **a'** phrases (antecedent and consequent).

Finish the **b** phrase so that it modulates home. *The voicing should stick to sequence as much as humanly possible.*

Finish the **a''** phrase so that some kind of treasure from **a'** is restated in the home key (it can be anything from **a'**. This probably will be a short nugget of harmony / melodic fragment). It will probably be altered slightly so it no longer modulates, but it must resemble the treasure as stated in **a'**.

a

a'

b

G: iii⁶

vi

ii⁶

V

a''

What is the specific sequence in the **b** phrase?
